

The professorship of Circular Economy at TUM Campus Straubing for Biotechnology and Sustainability aims at contributing to the transition to sustainable industry through Bioeconomy and Circular Economy approaches. Thereby we focus on developing quantitative approaches to model, assess and optimize BE and CE systems. To support our team we are looking for a

Research Associate or PostDoc (m/f/d)

Key activities

In research you carry out interdisciplinary and application oriented research projects. You work especially on the modelling of material flows in a circular bioeconomy, the modelling of the transition of economic sectors towards a CE and / or the optimization of BE and CE systems. In so doing you apply and further develop methods from Material Flow Analysis, Input-Output Modelling and / or agent-based modelling. Moreover, you support the chair's teaching activities by preparing lecture and tutorial materials, holding tutorials, and advising students.

Qualification:

As a suitable candidate, you hold an at least good PhD or master's degree in industrial engineering, industrial ecology, computer science, management, economics, or similar disciplines. You think analytically, work solution oriented and voluntarily in international and interdisciplinary teams. You show creative thinking and commitment. Willingly, you bring your knowledge and abilities into the long-term development of the professorship. Ideally, you already have knowledge in the fields of simulation, mathematical optimization, and/or material flow analysis. Additionally, you are well versed in the English language.

What we offer

We offer a full time position as academic staff with the opportunity to pursue a doctoral degree or postdoctoral qualification. The position is available immediately. The initial contract will be limited, extensions are intended. A part time employment is possible. Payment will be based on the Collective Agreement for the Civil Service of the Länder (TV-L) at E13 level. TUM strives to raise the proportion of women in its workforce and explicitly encourages applications from qualified women. Applications from disabled persons with essentially the same qualifications will be given preference.

Application

If you are interested in working with us, please send your documents by email to circulareconomy@cs.tum.de. For more Information, please do not hesitate to contact Prof. Dr. Magnus Fröhling (magnus.froehling@tum.de). The deadline for application is **02/15/2022**.
