

Bachelor-| Masterarbeit | Forschungspraktikum

Der Zuschnitt des Themas kann je nach Art der Abschluss-/Studienarbeit angepasst werden. Gleiches gilt für die Methoden. Inhaltliche Details und Zuschnitt können in einem ersten Gespräch besprochen werden.

The topics can be adapted according to the type of thesis/study work. The same applies to the methods. Content details and adjustments will be discussed in an initial conversation.

Konsumenteninteresse für Lebensmittel aus alternativen Proteinquellen

Consumer interest in alternative protein products

Englisch/ Deutsch (ggf. weitere Sprachkenntnisse von Vorteil):
English or German (additional language skills may be advantageous):

1. Consumer interest in alternative protein products/sources in Mediterranean countries (systematic literature review)
2. Consumer interest in alternative plant-based protein sources in Mediterranean countries (literature review)
3. Consumer interest in alternative insect-based or fungi-based protein sources in Mediterranean countries (literature review)
4. Foreign students' (preferably from Mediterranean countries¹) interest in different alternative protein food products² (focus group workshops or semi-structured interviews)
5. Interest of individuals with migration background from Mediterranean countries in different alternative protein food products (focus group workshops or semi-structured interviews, where applicable: standardized survey)²
6. Interest in different alternative protein food products³ in different Mediterranean countries (online focus group workshops or semi-structured interviews, where applicable: standardized survey)

¹ E.g. from Turkey, Tunisia, Portugal; but others are possible.

² ⁽⁻³⁾ Possibilities:

- Fermented vegetable pickles enriched with protein produced from tomato pomace or tomato leaves
- Tahini enriched with sesame protein produced from sesame cake
- Snack product (e.g. bars) enriched with date protein produced from date cake (as byproduct of date syrup production)
- Insect proteins as protein powder to be used in specific fields of nutrition with high interest in protein-enriched food products (e.g. sports nutrition)
- Mycoprotein as protein powder to be used in different food products
